About The TCI-PAC

RATIONALE & MISSION
TCI-PAC is the unified voice of the Transportation Construction Industries in Pennsylvania. It represents asphalt, aggregates, cement, concrete, contractors, materials suppliers, equipment dealers, service purveyors and consultants. The mission is to support candidates for governor and the state legislature who support the needs of the Transportation Construction Industries in Pennsylvania. It does not support federal candidates.

FOCUS OF TCI-PAC SUPPORT
- Candidates for Governor
- Statewide Legislative Leadership PACs
- Key Legislative Committees
- Rank & File Members In Need of Support
- Candidates Who Are Supportive Of Our Industry

Why Support the TCI-PAC?

INDUSTRY AGENDA
The TCI-PAC creates the political focus for our industry by identifying key issues and developing plans of action to get things done for us within the legislative system.

COLLECTIVE ACTION
An individual working alone cannot possibly accomplish as much as we can through working together as a joint lobbying force.

INDUSTRY FOCUS
The TCI-PAC represents the interests of every facet of our industry, and it is working to help ensure that each company becomes more profitable. Only through the TCI-PAC can we secure a funding increase, streamlined regulation, and the effective delivery of our message to elected officials.

STRATEGIC GIVING
Every dollar donated to the TCI-PAC is deliberately given to those legislators who consistently prove they have a vested interest in supporting and improving our industry.

GRASSROOTS
The TCI-PAC assists companies to get their employees actively involved in the political process through proper training. With TCI-PAC’s help, companies have been successful in integrating programs into their corporate culture, including voter registration and training employees on how to interact with legislators on key issues. The TCI-PAC hosts workshops featuring political strategists who share their perspectives on relevant public policy, as well as publishing information relevant to our Industry.
PRESERVING HIGHWAY FUNDS
Act 89 provided an unprecedented level of investment into our state’s transportation network. Protecting these funds and ensuring they are fulfilling the promises made to the general public is paramount to the success of Act 89. The TCI-PAC is continually working on legislation to keep the highway funds from being siphoned off for other, non-highway purposes. One of the major drains on the state highway fund is a continual and increasing transfer to the Pennsylvania State Police for its general operations providing now over $730 million annually to their operating budget. If this continues to increase it will harm the state’s ability to meet the growing demands of infrastructure maintenance and reconstruction. If the trend continues, the gains made by Act 89 will be completely eroded over the next decade. TCI-PAC is working to STOP this increase and begin to reign in this annual funding transfer to more acceptable and sustainable levels.

ACT 44: THE NEXT FISCAL CLIFF
Act 89 changed the financial arrangement between the PA Turnpike and the Commonwealth created in 2007 by Act 44. The Turnpike’s payment obligation remains at $450 million annually through Fiscal Year 2022. The annual draw of $450 million is allocated to support transit capital, operating, multi-modal and other non-highway programs. Beginning in Fiscal Year 2023, the annual payment obligations decreases to $50 million.

Beginning in 2023, if the General Assembly doesn’t find another way to replace this $400 million, it will automatically come from the state sales tax. This could leave a $400 million hole in the state’s General Fund budget, potentially jeopardizing highway and other transportation capital programs.

ALTERNATIVE FUELS FAIRNESS
Funding for Pennsylvania’s entire highway construction budget is derived from highway user fees (i.e. fuel taxes and related driver/motor vehicle fees). With the increasing usage of alternative fueled and powered vehicles (i.e. hybrids, electric cars, natural gas vehicles, etc.), Legislation was developed to ensure that all highway users are paying their fair share for using the transportation network. The TCI-PAC is working diligently to see this legislation enacted so that the fair and responsible money to fund our highway network is paid by the owners and operators of alternative fueled and powered vehicles.
